ALL CHARGES ARE EXCLUSIVE OF VAT

The High Court Sheriff can be instructed for debts above £600 but it is our policy to enforce debts of below £1,000 in the County Court. All debts above £1,000 are referred to a High Court Sheriff.

Where a Sheriff is instructed and is unsuccessful an abortive fee is charged, which currently stands at £60.00 + VAT.

As well as the above, all other forms of enforcement are undertaken on a fixed price basis, details will be provided for agreement by Hadfield & Co before further action is taken.

Other charges

Case Preparation Fee

A charge of £25 is made for each legal file opened with us and this charge is not recoverable from the debtor.

Commission

Our normal rates of commission are payable on all monies recovered in the legal process, and this charge is not recoverable from the debtor. However, it is frequently possible for us to collect either late payment charges & interest, or statutory interest on your debt, so that in most circumstances the sum recovered will extinguish our commission charges.

Defended Actions

A small proportion of all cases prove to be subject to a dispute/defence, and our defended action department charges in such cases for work done on our normal solicitor charging rate for cases over £ 5000 and further details are available on request. For cases under £ 5000, and which are dealt with in the small claims track, fixed fees are charged and also available on request.
